

kendellwarner

concept. design. execution.

objective:

I am looking to contribute my creative energies and intense work ethic to a strong team who enjoys the work they do.

education:

New York Institute of Technology
Computer Graphics, Bachelors of Fine Art
Magna cum Laude, GPA 3.6
NYIT Dean's List from Fall 2003 – Spring 2005

experience:

John Deere Agricultural Marketing, Lenexa, KS

Advertising Designer, 01/2009 - Present

With the direction of a long lasting brand, a loyal customer following and strict branding guidelines, my main purpose with Deere is to support the design team by developing creative for both print and web mediums. From designing brochures and magazine inserts to creating flash web banners, I've worn many hats in a department that is expanding their brand, online.

V'nilla Designs Freelance, Overland Park, KS

Graphic Designer, 06/2004 - Present

As a Freelance Designer I am responsible for the design and production of brand identities, print advertisements, websites and promotional collateral for various companies. Clients I've worked with include: Textopoly, MGC Contractors, Inc., and others.

Aplus.Net, Overland Park, KS

Web Designer, 09/2007 - 01/2009

My primary duty at Aplus.Net was to design, implement, and maintain client websites based on provided specifications and market goals. Alongside the standard design and development process I was entrusted with the responsibility of researching and implementing advanced design solutions, e-commerce solutions and training entering designers in roles ranging from design to maintenance.

Techno Inc., New Hyde Park, NY

Graphic Artist, 09/2006 – 09/2007

Working with the Supervisor of the Communications Department my primary responsibilities were to simultaneously design five product catalogs, direct mailers, create web advertising graphics, design internal documentation, and create trade show graphics. My job did not stop at the creative end as I also had to maintain relationships with business partners and vendors.

skills:

Abilities:

Complex problem solving, digital photography, online marketing and advertising, and professional communications.
